Need Child Care?

Community Services Bureau (CSB) is the largest childcare provider in Contra Costa County, serving children and their families in our Head Start, Early Head Start, State Child Preschool programs, CalWORKS Stage 2 and Alternative Payment programs.

Benefits of Our Program

Your family may be eligible to receive assistance with full or partial payments for childcare.

Parents have the choice to select child care services from:

- Licensed centers
- Licensed family child care homes
- Licensed-exempt providers
- Home visiting services

Care is available for children starting from birth up until their 13th birthday, or up to age 21 if special needs are verified with appropriate documentation.

We can provide services for families needing part-time and/or full-time care during traditional business hours, evenings, and/or weekends.

Types of Child Care

Child Care Centers: CSB has licensed child care centers, offering part-day and full-day options for infants, toddlers, and preschoolers throughout the county.

Licensed Family Child Care Homes: Providers may care for babies, toddlers, preschoolers and school-age children in their homes. Family child care providers offer planned play and scheduled activities that help children learn.

Home Visiting Programs: Head Start and Early Head Start home visiting services are available for families right in the comfort of their own home. Home visitors come once a week to offer learning activities for parents and their children.

After School/Weekend Program: Through CSB's CalWORKS Stage 2 and Alternative Payment Program, parents are able to maximize parenting choice to select the providers that best accommodate their family's needs.
